CALIFORNIA POSTSECONDARY EDUCATION COMMISSION

AUGUST 1997 COMMISSION REPORT 97-7

Summary

This report is the latest edition of the Commission's *Student Profiles* It provides comprehensive information about students in postsecondary education in California *Student Profiles* contains information on first-time freshmen and transfer students that formerly appeared in other Commission reports as well as a wide variety of other data profiles, including total enrollment figures and information on student outcomes Generally, the profiles display information covering the most recent 10-year period and end with data through the immediately preceding academic year -- 1995-96 -- as well as fall 1996 data

Unlike most Commission reports, *Student Profiles* contains little analytic comment Instead, the staff encourages readers to use these data as the basis for their own analyses To facilitate that process, it should be noted that this edition of *Student Profiles* has been added to the Commission's Internet website -- http //www cpec ca gov -- and is now electronically accessible to the general public

Additional copies may be obtained from the Publicatons Office of the Commission at (916) 322-8024 Questions about the substance of the report may be directed to ZoAnn V Laurente of the Commission, at (916) 322-8030

Introduction

STUDENT PROFILES, 1997 is the latest edition in a series of fact books issued by the California Postsecondary Education Commission to provide comprehensive information about students in postsecondary education in California. *Student Profiles* contains a wide-ranging set of graphs and statistical tables that allow readers to gain an understanding of the characteristics of California students as well as trends in these characteristics, including eligibility for college and university admission, enrollment, transfer, and program completion Unlike most Commission reports, *Student Profiles* contains little textual comment and analysis about the data. Instead, the Commission hopes that it will provide the basis for such analysis by others.

The primary purposes of *Student Profiles* are five-fold·

1. To provide a context to facilitate policy analysis by presenting a global view of students in California;

2 To permit prompt response to basic inquiries regarding student information,

3 To serve as a basic source of data for research,

4 To function as the Commission's "official" guide to student statistics (by supplying correct, agreed-upon data, even if disagreement exists about the manner in which these data might be used in different policy analyses); and,

5 To stimulate the production of special topical reports when specific trends in higher education warrant more detailed analysis and description.

Organization of the report

This edition was reorganized in 1996 for easier identification and location of data Section 1 highlights the profiles in the report that display information regarding California high school graduates Section 2, which was eliminated in previous reports, now contains the postsecondary student enrollment displays that were formerly presented in Section 1 Additionally, a Guide to the Contents, highlighting segmental clusters of profiles, has replaced the former sequential table of contents Except for the renumbered profiles in

Section 2, all profiles retain their original numbers to ease the user's transition to the new structure and order of displays. Although they are located in numerical order in the body of the report, the profiles are clustered by higher education sector in the Guide to facilitate locating particular profiles of interest In future editions, however, staff is considering a complete renumbering process to formalize the order and structure reflected in the Guide to the Contents

Publication History

Each edition of the *Student Profiles* series focuses on student data for the immediately preceding academic year and includes that year's subsequent fall term. Wherever possible, historical data is also provided The first edition of the series, *Student Profiles, 1990* (Commission Report 90-23), was published in October 1990 and included data for the 1988-89 academic year as well as Fall 1989 The second edition, *Student Profiles, 1991* (Commission Report 92-10), focused on the 1989-90 academic year and Fall 1990 and was published in March 1992 Throughout the remainder of 1992 and continuing through mid-1994, funding limitations and changes to segmental information systems -- primarily at the California Community Colleges -- resulted in a change in the publication process of *Student Profiles* data Commission staff responded to the unavailability of data by providing revisions to each section of *Student Profiles* as they became available rather than by publishing separate annual editions, but maintained the original format and report time frames *Student Profiles, 1992* (covering the 1990-91 academic year and Fall 1991), *Student Profiles, 1993* (covering the 1991-92 academic year and Fall 1992), and *Student Profiles, 1994* (covering the 1992-93 academic year and Fall 1993) were developed and distributed in this manner without formal publication dates or report numbers To re-establish a regular publication process and cycle, a final version of *Student Profiles, 1994* was designated as Commission Report 94-20 and the final form of that edition was redistributed. Shortly thereafter, *Student Profiles, 1995* (Commission Report 95-16) was produced and distributed in keeping with the Commission's normal report production process. The publication of *Student Profiles, 1996* returned the Commission to an annual publication cycle, as originally envisioned, with updates provided as data revisions warrant

Organization of the profiles

Student Profiles is divided into these six sections

1 *High School Students*

This first section provides information about the number of public and private high school graduates, their origin and academic preparation by region, and their college-going rates at California public and independent postsecondary institutions

2. *All Postsecondary Students*

This second section provides information about all of California's college and university students in order to provide a context for later sections and an overview of the ways in which California's student body has changed over the last decade

3 *First-Time Freshmen and New Students*

This third section includes data that were formerly displayed in the Commission's annual *College-Going Rates* reports In addition to information regarding recent high school graduates and their college-going rates in the sectors of California postsecondary education, data in this section reflects the origin of new postsecondary students, their gender and racial/ethnic distribution, and a comparison of California and first-time freshmen enrollment in the United States

4 *Transfer Students*

This fourth section contains information on transfers from the community colleges to the State University and University as well as facts about transfer students from the other systems to those institutions The Commission previously published this information in its annual *Update of Community College Transfer Statistics* However, information in this section has been expanded in order to portray a more accurate sense of student flow, including transfers between campuses of the same system and "reverse transfer" students -- those who begin their higher education in a baccalaureate-granting institution and then transfer to a community college

5 *Student Outcomes*

The fifth section of this *Student Profiles* report provides information on student outcomes, such as the number of degrees and certificates awarded at the public university systems, by level, gender, race/ethnicity, and by discipline Ultimately, the Commission would like to present information beyond simply reporting the number of degrees awarded by California's colleges and universities, including graduation rate, student attrition, and persistence information once student-specific data is available from longitudinal databases

6 *Area-Specific Student Data*

The sixth and final section of *Student Profiles* provides information on high school graduates and college-going rates by county, and on community college transfer students by district and campus. These tables were previously published in the Commission's annual *College-Going Rates* report and its annual *Update of Community College Transfer Statistics*, respectively It also includes information by county on completion of the high school courses required for college admission Information on this subject is also published in the Commission's periodic reports on college eligibility

Sources of the data

California's colleges and universities are the data sources from which the Commission assembles *Student Profiles* The State's public universities submit all of their enrollment and degree data to the Commission on machine-readable magnetic computer tape. The California Community Colleges submit their data to their Chancellor's Office which currently provides the Commission direct access to their data base California's independent colleges and universities submit all of their data to the Commission using hardcopy survey forms generated from the Integrated Postsecondary Education Data System (IPEDS) of the National Center for Education Statistics of the United States Department of Education.

Categorization of independent institutions

In order to reflect the diversity that exists within California's independent sector of higher education and to facilitate meaningful comparisons to their public-sector counterpart institutions, the Commission arrays data from the State's independent colleges and universities in three groups that are comparable to the public systems. The criteria used by the Commission to establish these groups were. (1) the set of high school courses required by the institution for admission, (2) the range of acceptable admission test scores for incoming students, and (3) the minimum high school grade-point average required for admission The three groups are.

1 Independent institutions with admission standards comparable to the University of California,

2. Independent institutions with admission standards comparable to the California State University; and

3 Two-year independent institutions

The following list identifies these institutions by their group classification.

Group 1

1 California Institute of Technology
2 Claremont Graduate University
3 Claremont McKenna College
4 Harvey Mudd College
5 Loyola Marymount University
6 Mills College
7 Occidental College

14 Mount Saint Mary's College
15 Point Loma Nazarene College
16 Southern California College
17. United States International University
18 University of La Verne
19. Woodbury University

Group 3

1 American Academy of Dramatic Arts West
2 Brooks College
3. College of Oceaneering
4 Condie Junior College of Business and Technology
5. Don Bosco Technical Institute
6 D-Q University
7. Fashion Institute of Design and Merchandising
8 Marymount College, Palos Verdes
9 National Technical Schools
10 Queen of the Holy Rosary College
11 San Francisco College of Mortuary Science

Information from only those independent institutions that have consistently provided data to the Commission over the last ten years have been included in this report in order to allow trend analyses of the independent sector at large

Finally, because information about the independent colleges and universities comes solely from their IPEDS survey forms in which data is provided only in aggregate format, the Commission is more limited in its presentation of the data than is the case for public institutions In addition, those survey forms do not collect all of the information that the Commission gathers through its individual student record data system

Caveats Four limitations should be noted:

- First, the data reflects actual numbers of students -- "headcount students" -- rather than calculations of full-time-equivalent students (FTES)

- Second, while *Student Profiles* includes statistics on students in the State's four major sectors of higher education -- the California Community Colleges, the California State University, the University of California, and California's regionally accredited independent institutions -- it does not cover statistics on two other areas of interest to the Commission (1) the State's private institutions that seldom submit student data to the Commission, including its non-accredited vocational schools and degree-granting institutions, such as business schools and flight-training institutes, and (2) California students attending college in other states. Both of these types of statistics are needed for *Student Profiles* to present a totally comprehensive picture of college-going behavior on the part of California's residents.

- Third, data for the sector of independent institutions may reflect significant fluctuations from year-to-year This is due largely to inconsistent reporting by individual institutions over the years and should not be misinterpreted as unusual student activity in this sector. The Commission is involved in continuous efforts to verify data reports from institutions in this sector in order to more accurately portray the characteristics of students attending these institutions

- Lastly, data in this latest edition of *Student Profiles* supersedes data previously reported by the Commission both for the specific year to which this edition is devoted and for the indicated historical period. As a result of the Commission's data verification process, institutions are encouraged to submit revisions to current and prior year data

previously reported These revisions as well as data received after official deadlines are added to the Commission's database on a continuous basis. Therefore, data in this edition should be considered the most accurate available even though it may differ from similar data reported by the Commission in previous editions of *Student Profiles*

Format of the report and availability of data

The Commission publishes *Student Profiles* on paper that has three holes that fit in binders so that additional tables can be added easily to the report. This allows the Commission staff to provide revisions to particular tables on a more timely and regular basis than might otherwise be possible and allows for major revisions, when warranted. In addition to the published report itself, the Commission provides the data contained in this report on floppy disk or magnetic computer tape The data tables and graphics were created using Excel software (Version 5 0) Most importantly, it should be noted that the data profiles in this report are now available in their entirety on the Commission's Internet web site, which is located at "http://www.cpec.ca.gov " These data may be downloaded from the Internet to an user's personal computer. The footnotes at the bottom of each profile page have also been revised to list the Commission's Internet address as an additional guide to readers with respect to data available from the Commission

Feedback about the report

Student Profiles is published by the Commission as part of its "postsecondary education information clearinghouse" responsibilities The Commission staff hopes to continue to improve the quality and usefulness of these profiles by soliciting comments from users of this information The Commission appreciates receiving comments about ways by which to make this report and its other documents more useful as well as advice about any errors of omission or calculations that should be corrected to enhance accuracy Please direct your comments to

CALIFORNIA POSTSECONDARY EDUCATION COMMISSION

THE California Postsecondary Education Commission is a citizen board established in 1974 by the Legislature and Governor to coordinate the efforts of California's colleges and universities and to provide independent, non-partisan policy analysis and recommendations to the Governor and Legislature

Members of the Commission

The Commission consists of 17 members Nine represent the general public, with three each appointed for six-year terms by the Governor, the Senate Rules Committee, and the Speaker of the Assembly Six others represent the major segments of postsecondary education in California Two student members are appointed by the Governor

As of August 1997, the Commissioners representing the general public are

Jeff Marston, San Diego, *Chair*
Guillermo Rodriguez, Jr , San Francisco, *Vice Chair*
Mim Andelson, Los Angeles
Henry Der, San Francisco
Lance Izumi, San Francisco
Kyo "Paul" Jhin, Malibu
Bernard Luskin, Encino
Melinda G Wilson, Torrance
Vacant

Representatives of the segments are

Kyhl Smeby, Pasadena, appointed by the Governor to represent the Association of Independent California Colleges and Universities,

Joe Dolphin, San Diego, appointed by the Board of Governors of the California Community Colleges,

Gerti Thomas, Albany, appointed by the California State Board of Education,

Ralph Pesqueira, San Diego, appointed by the Trustees of the California State University,

Frank R Martinez, San Luis Obispo, appointed by the Council for Private Postsecondary and Vocational Education, and

David S Lee, Santa Clara, appointed by the Regents of the University of California

The two student representatives are
Stephen R McShane, San Luis Obispo
John E Stratman, Jr , Orange

Functions of the Commission

The Commission is charged by the Legislature and Governor to "assure the effective utilization of public postsecondary education resources, thereby eliminating waste and unnecessary duplication, and to promote diversity, innovation, and responsiveness to student and societal needs "

To this end, the Commission conducts independent reviews of matters affecting the 2,600 institutions of postsecondary education in California, including community colleges, four-year colleges, universities, and professional and occupational schools

As an advisory body to the Legislature and Governor, the Commission does not govern or administer any institutions, nor does it approve, authorize, or accredit any of them Instead, it performs its specific duties of planning, evaluation, and coordination by cooperating with other State agencies and non-governmental groups that perform those other governing, administrative, and assessment functions

Operation of the Commission

The Commission holds regular meetings throughout the year at which it discusses and takes action on staff studies and takes positions on proposed legislation affecting education beyond the high school in California By law, its meetings are open to the public Requests to speak at a meeting may be made by writing the Commission in advance or by submitting a request before the start of the meeting

The Commission's day-to-day work is carried out by its staff in Sacramento, under the guidance of Executive Director Warren Halsey Fox, Ph.D , who is appointed by the Commission

Further information about the Commission and its publications may be obtained from the Commission offices at 1303 J Street, Suite 500, Sacramento, California 98514-2938, telephone (916) 445-7933
