## **EXECUTIVE SUMMARY**

### **BACKGROUND**

The *2001-02 Budget Act* included approximately \$127 million to fund 19 different outreach programs designed to encourage and support high school students to attend college. Since some programs also receive additional funds from federal, private, and local school districts the combined outreach program revenue is even greater. Over the past five years, the number of outreach programs has increased and the state's funding commitment has quadrupled in an attempt to counterbalance the effects of new policies restricting university admission based on race, gender, and ethnicity.

Out of a desire to better understand the programs that comprise California's college outreach efforts, the California Legislature and Governor included funding in the *2001-02 Budget Act* for the California Postsecondary Education Commission (CPEC) to contract for an inventory of outreach programs that work directly with California's high schools. The evaluation was originally envisioned as a two-part study, with the first phase providing an inventory of outreach programs and the second phase analyzing the effectiveness of the programs. However, budget constraints have eliminated the likelihood of completing the second part of the evaluation. Consequently, this study was designed to provide policymakers and the community with the following information about state-supported high school outreach programs:

- Services and programs offered.
- Types of students targeted for participation.
- Distribution of programs throughout the state.
- Concentration of programs among high schools.
- Program revenues and expenditures.

### **SCOPE OF STUDY**

This study focuses on those outreach programs that directly support students, provide curriculum assistance to improve schools, and conduct college informational and outreach activities at California's 901 comprehensive public high schools. The study provides detailed information about the programs that are in place at each comprehensive public high school. It does not include information about programs in place at elementary schools, middle schools,

alternative (noncomprehensive), or private high schools. Furthermore, the focus of this study is to produce an inventory or survey of programs. Hence, this study does not assess program effectiveness, impact, or efficiency. Program level financial data is included as part of this study; however, data about individual student service costs was not available.

Surveys were sent to the 19 outreach program administrators requesting fiscal year (FY) 2000-01 information about the types of services provided, the number of students, teachers (if applicable) and schools served, and the selection criteria used. Information regarding outcome evaluation, program budget, and a list of high schools involved in the program was also requested. Although most programs provided information about the types of services offered and selection criteria employed, some could not provide a breakdown of revenues and expenditures for services to students in grades 9-12. Also, most programs could not provide information about the number of students participating in a program at each high school.

Surveys were also sent to every high school and unified school district in California requesting information about outreach programs offered in their schools in FY 2000-01. Similarly, data about services provided, program budget, and the grade and ethnicity of students enrolled were requested. Of the 430 surveys mailed, only 85 school districts responded (approximately 19.8 percent). Most school district administrators said their heavy work load prevented them from responding to the survey. Many also said it was their district policy to decline to respond to surveys not mandated by the state or federal government. Of the returned surveys, the majority did not include enough detailed information to make them valuable to the report. In general, districts only provided the names of outreach programs offered along with the total number of students participating. Hence, this study reports findings based on program administrator data.

In addition, FY 2000-01 demographic data for every comprehensive public high school was included in the study to facilitate comparisons. Most of the data was obtained from the California Department of Education (CDE) and includes enrollment, Academic Performance Index (API) ranking, and socioeconomic information. This information was also critical in building profiles of schools offering various outreach programs.

The 19 outreach programs discussed in this report are presented in one of following three categories:

- Informational Outreach Programs – provide information about college, admission guidelines, financial aid, and appropriate course selection.
- Student Academic Preparation Programs – focus on working with the student directly to improve academic skills.

- School Improvement Programs – provide curriculum support to teachers and other services to improve students’ knowledge, skills and performance schoolwide.

Although some programs have a secondary objective best reflected in another category, they were placed according to the program’s primary mission and footnoted accordingly.

## **SUMMARY OF FINDINGS**

The report includes detailed information about the outreach programs in place at each comprehensive public high school as well as information about each outreach program. Below is a summary of findings reported in the study:

- **Most comprehensive public high schools had one or more high school outreach program(s).** Approximately 94.9 percent of comprehensive public high schools offered at least one outreach program. The majority – 56.4 percent – had between one to four outreach programs.
- **Outreach programs were prevalent throughout the state. More populated regions are more likely to have programs.** The distribution of outreach programs was consistent with the distribution of high schools throughout the state. However, within more populated regions of the state between 33.7 percent and 44.9 percent of high schools had five or more outreach programs. In contrast, 2.2 percent of the schools in the Foothill/Mountain regions and 22.7 percent of schools in the northern region of the state had this many programs.
- **Teacher training programs reached more remote schools through regional centers.** A greater number of rural schools participated in teacher training programs as compared to student-oriented programs due to the nature of the delivery system. Many teacher training programs operate during the summer at regional locations, thus providing greater access to teachers from rural areas.
- **Most of the outreach programs reported selection criteria focused on low-performing schools and students, college attendance rates, and students who would be the first in their family to attend college.** By comparing schools with a high prevalence of high school outreach programs to schools with few or no outreach programs the following trends were observed:
  - **Low API rankings were linked to a larger number of outreach programs.** Comprehensive public high schools with low API rankings are more likely to have a greater number of outreach programs than high schools with higher rankings. For example, the median API

ranking of schools with no outreach programs was nine — three times higher than the median API ranking of schools with five or more outreach programs.

- **Socioeconomic measures were also good predictors of a school's likelihood of offering outreach programs.** Over 47 percent of low-income or socioeconomically disadvantaged schools offered five or more outreach programs, compared to 4.3 percent of high-income, or socioeconomically advantaged schools. Likewise, the majority of comprehensive public high schools where 50 percent of students qualify for free or reduced price meals had five or more outreach programs. By comparison, only 20.8 percent of schools where less than 25 percent of students qualify for free or reduced price meals had five or more outreach programs.
- **College attendance rates did not appear to influence the number of outreach programs at a given high school.** The percentage of schools grouped by number of outreach programs did not differ significantly when broken into college attendance rates. For example, of schools with five or more outreach programs, 38.2 percent reported less than one-quarter of students attended college compared to 40.7 percent that reported between 76 and 100 percent of students attended college.
- **Variety of outreach programs reached almost one-half of all high schools.** The type of outreach programs offered in comprehensive public high schools was varied, with 45.5 percent of schools reporting at least one program from each category. In addition, 67 percent of schools were served with outreach programs from at least two of the categories.
- **Limited fiscal data is available.** The decentralized nature (that is, local college and university campuses provide services, but are supported by a central office) of many of the outreach programs makes it difficult to obtain detailed program financial data. Information was not readily available to program administrators, particularly with regard to the level of expenditures for high school services and the cost per student.
- **Most schools have multiple programs, but no information was available about how programs are coordinated.** Data was not available to assess the level of coordination among programs. The lack of standard data collection practices also made it difficult to determine whether a core group of students were enrolled in multiple programs or whether schools with a large number of programs served a greater number of students.

## I. INTRODUCTION

The California Legislature began funding college outreach programs over 25 years ago to support the preparation and eventual enrollment of students into colleges and universities. Over the past ten years, California's investment in outreach programs has increased significantly. The *2001-02 Budget Act* included approximately \$127 million to support over 19 high school outreach programs.<sup>1</sup> A heightened interest in outreach strategies was in part fueled by a desire to ensure that all students in California are prepared academically regardless of socioeconomic status, race, and geographic region of the state. Changes to the factors that can be considered as part of the state university admission process (that is, elimination of gender and race/ethnicity) have also contributed to increased interest in outreach programs.

Out of a desire to better understand the programs that comprise California's college outreach efforts, the California Legislature and Governor included funding in the *2001-02 Budget Act* for the California Postsecondary Education Commission (CPEC) to contract for an inventory of outreach programs that work directly with California's high schools. A total of 19 outreach programs were identified that work directly with California's 901 comprehensive public high schools. Some of these programs also work with elementary schools, middle schools, continuation and alternative (noncomprehensive) public high schools, and private high schools. However, this study focuses exclusively on those programs that are involved with comprehensive public high schools. This study was designed to provide policymakers and the community with the following information about state-supported high school outreach programs:

- Services and programs offered.
- Types of students targeted for participation.
- Distribution of programs throughout the state.
- Concentration of programs among high schools.
- Program revenues and expenditures.

The information collected as part of this study is intended to provide an overview of state-funded high school outreach programs. Since it is meant to serve as an inventory of programs, the study does not assess the impact of such programs on college attendance and completion, nor does it address the fiscal efficiency of the programs. Originally, a second phase of the evaluation was planned to assess the effectiveness of the programs. However, budget constraints have eliminated the Phase II study.

---

<sup>1</sup> This includes the state funding component for the two federal outreach programs (Talent Search and Upward Bound) presented in this report.

In addition, the data presented as part of the report applies to the 2000-01 school year unless noted otherwise. Given California's fiscal condition, significant funding adjustments to high school outreach programs have been recommended as part of the Governor's proposed 2002-03 budget (May Revision 2002). Should the Legislature approve these adjustments several of the programs described in this report would be either eliminated or downsized.<sup>2</sup>

The remaining sections of this report include a description of the methods used to compile the inventory. This is followed by profiles of each of the high school outreach programs and findings related to the distribution and prevalence of these programs. The appendices include a listing of outreach programs available at each comprehensive public high school, as well as demographic, socioeconomic, and academic data for those schools.

---

<sup>2</sup> The Governor's proposed 2002-03 budget (May Revision) includes significant funding reductions to high school outreach programs, which would result in the elimination of the following programs: UC College Preparatory Initiative, K-12 School-University Partnerships, Central Valley Outreach Programs, Arts Bridge Program, and UC All Collaborative on Outreach Research. In addition, funding would be reduced for UC's California Subject Matter Projects. If approved as proposed, the *2002-03 Budget Act* would reduce funding by approximately \$35 million for high school outreach programs, a 28 percent reduction in funding.

## **II. METHODOLOGY**

The initial study design included collecting and compiling data from school districts and outreach program administrators. A school district survey was designed to collect information about the number of students served by type of outreach programs for each comprehensive high school. In addition, the survey also requested data about program funding. A draft of the survey was distributed to a sample of urban, suburban, and rural school district personnel with knowledge of local high school outreach activities for comment and recommendations. Based on their feedback the survey was modified and distributed (via mail) to approximately 430 unified and high school districts to solicit information about local implementation of high school outreach programs. Study team members contacted the state's largest school districts to offer technical assistance preparing information for the high schools within their district.

A small number of school districts responded by the survey due date. All nonresponding school districts were called at least two times to request that they complete the survey. However, the study team found that many school districts have adopted a policy of declining to respond to surveys not mandated by the state. Consequently, only 85 school districts (approximately 19.8 percent) returned surveys. The majority of the school districts that responded to the survey did not have high school outreach programs. In addition, in those cases where school districts reported that they did have high school outreach programs, very few were able to provide fiscal data. Due to the low number of school district survey responses, the study team, in consultation with CPEC, decided not to include this data in the study database.

A separate survey was distributed to outreach program administrators, who were also contacted by phone and interviewed about the programs that they administer. Program data such as services provided, number of schools and teachers/students served, program budget, and performance measurements were requested (see Appendix A for detailed information). The study team worked closely with program administrators to collect requested data. At the end of the data collection period, information for all programs was compiled into a study database.

Data from the California Department of Education (CDE) and CPEC was added to the study database to facilitate the comparison of outreach programs by school characteristics such as demographic, socioeconomic, and regional information. Appendices B and C contain a complete description of the study database.

### **III. PROGRAM PROFILES**

#### **OVERVIEW OF OUTREACH PROGRAMS**

There are 19 high school outreach programs in California. All the programs share the goal of helping students to enroll—and succeed—in college, but each program has a unique approach or special target population. The programs can be classified into the following three major categories:

- Informational Outreach Programs – provide information about college, admission guidelines, financial aid, and appropriate course selection.
- Student Academic Preparation Programs – focus on working with the student directly to improve academic skills.
- School Improvement Programs – provide curriculum support to teachers and other services to improve students’ knowledge, skills and performance schoolwide.

Although some programs have a secondary objective best reflected in another category, they were placed according to the program’s primary mission and footnoted accordingly. (Please see exhibit on following page.)

<b>INFORMATIONAL OUTREACH PROGRAMS</b>	
<ul style="list-style-type: none"> <li>• California Student Opportunity and Access Program (Cal-Soap)<sup>1</sup></li> <li>• Educational Opportunity Program (EOP) Outreach</li> </ul>	<ul style="list-style-type: none"> <li>• CSU Lottery-Funded Outreach</li> <li>• Talent Search</li> </ul>
<b>STUDENT ACADEMIC PREPARATION PROGRAMS</b> <i>(SOME PROGRAMS INCLUDE INFORMATIONAL OUTREACH COMPONENTS)</i>	
<ul style="list-style-type: none"> <li>• Advancement Via Individual Determination (AVID)</li> <li>• Central Valley Programs<sup>2</sup></li> <li>• Early Academic Outreach Program (EAOP)</li> <li>• Los Angeles Basin Initiative<sup>2</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Mathematics, Engineering, Science Achievement (MESA)<sup>3</sup></li> <li>• Middle College High School</li> <li>• Pre-Collegiate Academic Development Program (PAD)</li> <li>• Puente<sup>3</sup></li> <li>• Upward Bound</li> </ul>
<b>SCHOOL IMPROVEMENT PROGRAMS</b>	
<ul style="list-style-type: none"> <li>• ArtsBridge</li> <li>• California Academic Partnership Program (CAPP)</li> <li>• California Subject Matter Projects</li> </ul>	<ul style="list-style-type: none"> <li>• Collaborative Academic Preparation Initiative (CAPI)<sup>4</sup></li> <li>• College Prep Initiative</li> <li>• K-12 School-University Partnerships</li> </ul>

<sup>1</sup> Student tutoring comprises approximately 30 percent of program activities

<sup>2</sup> Includes school improvement components.

<sup>3</sup> Includes teacher professional development components.

<sup>4</sup> Also provides student tutoring services to improve students' skills in CAPI schools.

The following section provides brief profiles of each of the high school outreach programs. All data is from the 2000-01 fiscal year unless noted otherwise. When available, the annual program expenditures presented in the profiles are for services provided to high school students only. The full budget for each program is provided in Appendix A.4.

**INFORMATIONAL OUTREACH PROGRAMS**

**CALIFORNIA STUDENT OPPORTUNITY AND ACCESS PROGRAM  
(CAL-SOAP)**

<b>FISCAL AGENT/SPONSOR</b>	<b>CALIFORNIA STUDENT AID COMMISSION</b>
<b>Program Description</b>	Cal-Soap has 17 educational consortia throughout the state to provide information on postsecondary education and financial aid. The program also attempts to increase achievement levels of students who are educationally disadvantaged through a variety of tutoring, academic counseling, and college outreach programs.
<b>Target Population</b>	Low-income students who are educationally disadvantaged. The program also targets students who would be the first in their family to attend college, as well as students from low-performing schools and/or schools that have a low rate of college enrollment.
<b>Program Start Date</b>	1979
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served</b>	195
<b>Number of High School Students Served<sup>a</sup></b>	45,000
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$18,705,156</b></p> <p>9-2 Direct Services: N/A                      9-12 Administration: N/A                      9-12 Total Expenditures: N/A</p> <p><i>Program does not track grade 9-12 expenditures separately.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

**California Student Opportunity and Access Program's** goal is to provide information about postsecondary education and financial aid. The program also aims to raise the achievement levels of students from low-income families, from schools or geographic areas with documented low eligibility or

college participation rates, or from families in which they would be the first to attend college.

## EDUCATIONAL OPPORTUNITY PROGRAM (EOP) OUTREACH

FISCAL AGENT/SPONSOR	CALIFORNIA STATE UNIVERSITY
<b>Program Description</b>	EOP's goal is to increase the college enrollment and graduation rate of low-income students who historically have been underrepresented in higher education and who may be unable to meet regular admission requirements.
<b>Target Population</b>	Low-income students who historically have been underrepresented in higher education.
<b>Program Start Date</b>	1998
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	245
<b>Number of High School Students Served<sup>b</sup></b>	22,387
<b>Number of Teachers Served</b>	356
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$1,751,767</b></p> <p>9-12 Direct Services: N/A                      9-12 Administration: N/A                      9-12 Total Expenditures: N/A</p> <p><i>Program does not track grade 9-12 expenditures separately.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was higher; not all CSU campuses submitted names of high schools served.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

The ***Educational Opportunity Program Outreach*** was established to increase the college enrollment and graduation rates of low-income students who historically have been underrepresented in higher education and who may be unable to meet regular admission requirements.

The EOP Outreach provides funding to California State University (CSU) campuses to develop and implement special outreach programs and activities for K-12 students who are educationally and economically disadvantaged. Examples of these services include mentoring and tutoring to raise skill levels. These services also provide encouragement to students to enroll in college preparatory

classes and guidance in selecting appropriate pre-college and college preparatory classes.

## LOTTERY-FUNDED OUTREACH

FISCAL AGENT/SPONSOR	CALIFORNIA STATE UNIVERSITY
<b>Program Description</b>	The program, supported in part by California State Lottery funds, provides high school students with an introduction to CSU campuses and programs. Services include career fairs, student recruitment, and assistance with the admission and financial aid process.
<b>Target Population</b>	All California high school students.
<b>Program Start Date</b>	Not available
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	279
<b>Number of High School Students Served<sup>b</sup></b>	89,567
<b>Number of Teachers Served</b>	145
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$1,068,788</b></p> <p>9-12 Direct Services: N/A                      9-12 Administration: N/A                      9-12 Total Expenditures: N/A</p> <p><i>Program does not track grade 9-12 expenditures separately.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was higher; not all CSU campuses submitted names of high schools served.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

The CSU's **Lottery-Funded Outreach** programs provide high school students with an introduction to CSU campuses and programs. General outreach includes career fairs, targeted student recruitment, academic advisement (for entrance requirements), and assistance with the admission and financial aid process.

## TALENT SEARCH

FISCAL AGENT/SPONSOR	U.S. DEPARTMENT OF EDUCATION
<b>Program Description</b>	Talent Search is designed to increase the number of youth from disadvantaged backgrounds who complete high school and enroll in a postsecondary education institution of their choice. Services include academic advising, financial counseling, career guidance, tutorial services, and mentoring programs.
<b>Target Population</b>	Students that are between the ages of 11 and 27 years and have completed the 5 <sup>th</sup> grade. Students must also come from low-income families or families in which neither parent holds a bachelors degree.
<b>Program Start Date</b>	1982
<b>Grade Levels Served</b>	6-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	87
<b>Number of High School Students Served<sup>b</sup></b>	7,037
<b>Number of Teachers Served</b>	40
<b>Annual Budget FY 2000-01</b>	<p><b>6-12 Total State Revenue: \$358,891</b></p> <p>9-12 Direct Services: N/A                      9-12 Administration: N/A                      9-12 Total Expenditures: N/A</p> <p><i>Program also receives \$1,874,375 in federal funding.</i></p> <p><i>Program does not track 9-12 expenditures separately.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 109

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

**Talent Search** is designed to increase the number of youth from disadvantaged backgrounds who complete high school and enroll in a postsecondary education institution of their choice. The program identifies individuals from disadvantaged backgrounds who have the potential to succeed in higher education and provides them with academic advising, financial counseling, career guidance, tutorial services, and mentoring programs. Talent Search also encourages students to graduate from high school and continue on to the postsecondary school of their choice, and assists high school dropouts by encouraging them to reenter the educational system and complete their secondary education.

**STUDENT ACADEMIC PREPARATION PROGRAMS**  
(INCLUDES INFORMATIONAL OUTREACH COMPONENTS)

**ADVANCEMENT VIA INDIVIDUAL DETERMINATION (AVID)**

FISCAL AGENT/SPONSOR	CALIFORNIA DEPARTMENT OF EDUCATION AND CALIFORNIA STATE UNIVERSITY
<b>Program Description</b>	College preparatory program offering students academic support through specially developed teaching and learning strategies. Services include classroom instruction, tutoring, and motivational activities.
<b>Target Population</b>	Underachieving, educationally disadvantaged middle and high school students.
<b>Program Start Date</b>	1980
<b>Grade Levels Served</b>	6-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	443
<b>Number of High School Students Served<sup>b</sup></b>	33,909
<b>Annual Budget FY 2000-01</b>	<p><b>6-12 Total State Revenue: \$12,300,000</b></p> <p>9-12 Direct Services: \$6,055,078</p> <p>9-12 Administration: <u>715,000</u></p> <p>9-12 Total Expenditures: \$6,770,078</p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 471.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

**Advancement Via Individual Determination (AVID)** is a college preparatory program for underachieving, educationally disadvantaged middle and high school students. It focuses on students who are “C” students and traditionally unlikely to be eligible for university admission. It offers them academic support through specially developed teaching and learning strategies. In exchange for this support, AVID students are expected to enroll in a special AVID academic elective and rigorous college preparatory courses offered at their school.

The AVID academic elective, as well assigned tutorial and motivational days, are designed to assist students in making the transition from low-track to high-track classes. In the elective, students meet with a classroom teacher and

are assisted by college tutors on a 7 to1 ratio. Class curriculum is focused on writing and inquiry in preparation for college entrance and placement exams. Tutorial days are dedicated to working in subject-specific groups with the assistance of a specially trained tutor. Motivational days are devoted to guest speakers, goal setting, and field trips to colleges, businesses, and cultural places of interest.

## CENTRAL VALLEY PROGRAMS

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	Links and coordinates various outreach programs in the Central Valley. The goal is to ensure that students from the area are encouraged and supported to attend college. The program also seeks to provide a pipeline of students for the new UC Merced campus, which is expected to open in 2004.
<b>Target Population</b>	Educationally disadvantaged students with mid-to-high academic achievements. The programs also seek students who would be the first in their family to attend college as well as students from schools with low college enrollment rates.
<b>Program Start Date</b>	1987
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served</b>	<ul style="list-style-type: none"> <li>• 26 EAOP schools (listed in database under Central Valley Programs).</li> <li>• 6 K-12 School University Partner schools (listed under Partnerships).</li> <li>• 138 General Outreach schools (listed under General Outreach).</li> </ul>
<b>Number of High School Students Served<sup>a</sup></b>	61,084
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$1,813,000</b></p> <p>K-12 Direct Services: \$1,965,993            K-12 Administration: <u>103,473</u>            K-12 Total Expenditures: \$2,069,466</p> <p><i>In addition, approximately \$1 million was provided in K-12 matching funding and in-kind services.</i></p> <p><i>Program does not track grade 9-12 expenditures separately.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

The **Central Valley Programs** is a loose consortia of programs offered to inform, motivate and support students. A secondary goal is to recruit students to attend University of California (UC) Merced, which is projected to open in fall 2004. The programs are coordinated through UC Merced in a 13-county area.

Services provided include student tutoring, writing academies, and environmental science programs at nearby national parks through EAOP. K-12

School-University Partnerships help improve curriculum at local public schools. Finally, students and parents receive information about UC programs and campuses through the General Outreach Program activities. Specific activities supported by the Central Valley Project include UC presentations at area high schools, admission application workshops, academic advising, personal statement workshops, general information sessions (including financial aid), and bus trips for parents and students to visit UC campuses.

## EARLY ACADEMIC OUTREACH PROGRAM (EAOP)

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	EAOP's goal is to help and support under-represented students to successfully enter college. Program components include tutoring, mentoring, SAT and other test preparation, summer enrichment programs, and academic/career counseling for students and families.
<b>Target Population</b>	Low-income students who are educationally disadvantaged. The program also targets students who would be the first in their family to attend college as well as students from low-performing schools and schools with a low college enrollment rate.
<b>Program Start Date</b>	1976
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served</b>	348
<b>Number of High School Students Served<sup>a</sup></b>	55,350
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$14,731,084</b></p> <p>9-12 Direct Services: \$8,484,042            9-12 Other (materials, etc.): 235,205            9-12 Administration: <u>1,157,202</u>            9-12 Total Expenditures: \$9,876,449</p> <p><i>In addition, approximately \$7 million was provided in matching K-12 funds and in-kind services and \$164,080 was provided in other funds.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

The **Early Academic Outreach Program** is a systemwide program with participation from all UC campuses. The program provides students who demonstrate the potential to go to college with academic enrichment activities and programs that their schools or families might otherwise be unable to provide. School teachers and counselors identify potential EAOP students at the elementary and junior high school levels. Students receive services through high school graduation.

In addition to academic development and information dissemination, EAOP strives to motivate students through campus tours, field trips, summer/weekend programs, and workshops for families and students. The program also relies on administrative/programmatic linkages with K-12 teachers, administrators and counselors to strengthen programs at the schools. This working relationship supports the creation of shared goals and promotes collaboration.

**LOS ANGELES BASIN INITIATIVE (LABI)**

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	Collaborative outreach effort of UC's campuses aimed at educationally disadvantaged students from Los Angeles. The program provides funding for enrichment programs during the school year to 19 schools; students from 140 schools participate in summer programs.
<b>Target Population</b>	Low-income students with mid- to high-academic achievement from low-performing schools are targeted. The program also looks for students at schools that have traditionally had a low college enrollment rate, as well as a large number of beginning teachers.
<b>Program Start Date</b>	1999
<b>Grade Levels Served</b>	6-12
<b>Number of Comprehensive Public High Schools Served</b>	19 schools participated during the school year; 140 schools sent students to summer sessions
<b>Number of High School Students Served<sup>a</sup></b>	37,709
<b>Annual Budget FY 2000-01</b>	<p><b>6-12 Total State Revenue: \$2,625,352</b></p> <p>9-12 Direct Services: \$2,391,313            9-12 Administration: <u>234,012</u>            9-12 Total Expenditures: \$2,625,325</p> <p><i>Revenue was received in FY 2000-01 and expenditures were made over a two-year period (FY 2000-01 and FY 2001-02).</i></p> <p><i>In addition, approximately \$2.5 million was provided in matching 6-12 funds and in-kind services.</i></p> <p><i>Although program serves grade 6-12 students, almost all funds were spent on high school students.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

The **Los Angeles Basin Initiative** provides outreach and enrichment programs to educationally disadvantaged Los Angeles high school students in

order to expand the pool of UC-eligible students. Although the UCLA campus administers the program, the programs focus on recruitment at all UC campuses. The LABI works with 19 high schools during the academic year to provide tutoring, curriculum support and college counseling services.

The LABI also hosts summer programs lasting from one day to six weeks for students from 140 Los Angeles high schools. A number of the UC campuses introduce prospective students to campus life through residential programs featuring academic workshops, lectures, campus tours, and career counseling. The longer programs provide gifted students with the opportunity to conduct university research, study environmental science, marine biology, or astronomy. A few summer programs also provide concentrated classes to improve students' science, math, and writing skills.

## **MATHEMATICS, ENGINEERING, SCIENCE ACHIEVEMENT (MESA)**

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	MESA is a rigorous academic support program featuring enrichment activities in math and science as well as academic advising, group study techniques, academic excellence workshops and career planning classes.
<b>Target Population</b>	Low-income students who are educationally disadvantaged in the mid- to high-academic achievement level. The program also looks at students from low-performing schools with poor science labs as well as students who would be the first in their family to attend college.
<b>Program Start Date</b>	1970
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	236
<b>Number of High School Students Served<sup>b</sup></b>	12,387
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$7,608,327</b></p> <p>9-12 Direct Services: \$6,433,427            9-12 Other: 296,475            9-12 Administration: <u>1,021,733</u>            9-12 Total Expenditures: \$7,751,635</p> <p><i>In addition, approximately \$114,000 was provided in local funds (business and community contributions), \$2.7 million in other funds (including federal funds) and \$4.8 million in matching K-12 funds and in-kind services.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 256.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

The **Mathematics, Engineering, Science Achievement** program serves educationally disadvantaged students by developing academic and leadership skills, raising educational expectations and instilling confidence in historically underrepresented students in engineering, physical science, or other

mathematics-based fields. The program strives to increase the number of under-represented students who graduate from a four-year university in these disciplines.

The core elements of the MESA program include individual academic plans to allow school counselors to monitor students' progress, a designated MESA period during the school day to allow students and teachers to meet, test preparation (SAT and PSAT), and study skills workshops. The program also features local and regional math and science competitions as well as parent leadership training to teach parents how to advocate for their child's education.

The MESA is an intersegmental program and receives funds through budget appropriations to UC, CSU, and the California Community Colleges (CCC). MESA also receives support from independent colleges, federal agencies, industry, private foundations and local school districts. Funding for MESA has been included in UC's budget since the program began in 1970 with the exception of two years (1983-84 and 1984-85) when funding was temporarily shifted to CDE.

## MIDDLE COLLEGE HIGH SCHOOL

FISCAL AGENT/SPONSOR	CALIFORNIA COMMUNITY COLLEGE
<b>Program Description</b>	Program offers high school students the opportunity to attend college classes and earn credit while fulfilling their high school graduation requirements.
<b>Target Population</b>	Low-income students who are educationally disadvantaged. The program also targets students who have potential to succeed in college, but are on the verge of dropping out of high school.
<b>Program Start Date</b>	1988
<b>Grade Levels Served</b>	9-12
<b>Number of Comprehensive Public High Schools Served</b>	64
<b>Number of High School Students Served<sup>a</sup></b>	1,845
<b>Annual Budget FY 2000-01</b>	<p><b>9-12 Total State Revenue: \$2,100,000</b></p> <p>9-12 Direct Services: N/A                      9-12 Administration: N/A                      9-12 Total Expenditures: N/A</p> <p><i>Approximately \$2.1 million in matching 9-12 funding and in-kind services is available.</i></p> <p><i>Program does not track services and administration expenditures separately.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

**Middle College High School** establishes high schools on community college campuses. The goal is to encourage high school students to complete college coursework and to ease their transition into college. Some campuses provide a high school on-site while others coordinate enrollment and support services for high school students who enroll in community college classes part-time.

## PRE-COLLEGIATE ACADEMIC DEVELOPMENT PROGRAM (PAD)

FISCAL AGENT/SPONSOR	CALIFORNIA STATE UNIVERSITY
<b>Program Description</b>	PAD coordinates CSU-student tutors for K-12 students. Services include individual and group tutoring and in-class presentations.
<b>Target Population</b>	Students needing assistance in strengthening their precollegiate English and mathematics skills.
<b>Program Start Date</b>	1996
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	156
<b>Number of High School Students Served<sup>b</sup></b>	45,180
<b>Number of Teachers Served</b>	2,761
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$5,130,318</b></p> <p>K-12 Direct Services: \$3,937,537                      K-12 Other: 139,041                      K-12 Administration: <u>510,105</u>                      K-12 Total Expenditures: \$4,586,683</p> <p><i>Program does not track 9-12 expenditures separately.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 213.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

The ***Pre-Collegiate Academic Development Program*** was initiated by the Chancellor’s Office of CSU. It provides for CSU student interns to tutor students who need assistance in strengthening their precollegiate English and mathematics skills. The students selected to participate in this program demonstrate potential to succeed in college preparatory courses, but may be working at or below grade level. In addition to improving English and mathematics skills, the program encourages students to take more rigorous courses and raises educational aspirations.

Services provided include individual and group tutoring, in-class presentations for students, training videos to provide guidance to teachers on how to use student tutors effectively in their classrooms, and training and support for CSU student interns who provide the tutoring services.

**PUENTE**

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	Puente’s goal is to increase the number of educationally underserved students who enroll in four-year colleges or universities, earn college degrees, and then return to their community to provide leadership and mentoring. The program features tutoring, counseling, and mentoring.
<b>Target Population</b>	Low-income students who are educationally disadvantaged. The program also targets students of all academic achievement levels who would be the first in their family to attend college, as well as those from low-performing schools with a low rate of graduates enrolling in college.
<b>Program Start Date</b>	1981
<b>Grade Levels Served</b>	9-14
<b>Number of Comprehensive Public High Schools Served</b>	33
<b>Number of High School Students Served<sup>a</sup></b>	2,834
<b>Annual Budget FY 2000-01</b>	<p><b>9-14 Total State Revenue: \$2,370,000</b></p> <p>9-12 Direct Services: \$1,937,043            9-12 Administration: <u>0</u>            9-12 Total Expenditures: \$1,937,043</p> <p><i>Program administration costs for the whole program of \$380,234 were funded through UC’s Puente community college program.</i></p> <p><i>In addition, approximately \$1.7 million was provided in 9-14 matching funds and in-kind services.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

**Puente** combines academic enrichment and counseling programs with community involvement to prepare students for a successful college experience. Students receive two years of college preparatory English classes, including a rigorous writing portfolio in grades 9 and 10. Intensive academic counseling is offered through the students’ senior year, along with mentors and other role

models from the community. The students' high school teachers, who are trained and supported by the Puente program, conduct the program.

## UPWARD BOUND

FISCAL AGENT/SPONSOR	U.S. DEPARTMENT OF EDUCATION
<b>Program Description</b>	Upward Bound provides support to participants in their preparation for college entrance. Services include instruction in math, laboratory science, composition, literature, and foreign language.
<b>Target Population</b>	High school students from low-income families and families in which neither parent holds a bachelors degree and first generation military veterans who are preparing to enter postsecondary education.
<b>Program Start Date</b>	1964
<b>Grade Levels Served</b>	9-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	148
<b>Number of High School Students Served<sup>b</sup></b>	2,865
<b>Number of Teachers Served</b>	125
<b>Annual Budget FY 2000-01</b>	<p><b>9-12 Total State Revenue: \$ 977,085</b></p> <p>9-12 Direct Services: N/A                      9-12 Administration: N/A                      9-12 Total Expenditures: \$7,905,183</p> <p><i>Program also receives \$6,928,098 in federal funding.</i></p> <p><i>Program does not track services and administration expenditures separately.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 183.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

**Upward Bound's** goal is to increase the rates at which eligible participants enroll in and graduate from colleges and universities. The central idea behind this program is that students from traditionally underrepresented groups can be prepared to successfully compete in postsecondary institutions if provided with a simulated college experience rich in academic and motivational support. All supported projects must provide instruction in math, laboratory science, composition, literature, and foreign language.

Students are usually admitted during the 9<sup>th</sup> and 10<sup>th</sup> grades and may participate in the program through their high school graduation. The program is conducted on participating college campuses during the summer sessions, but also offers activities during the academic year, including assistance with schoolwork, field trips to places of educational, cultural, and recreational value, assistance in defining career and educational goals, and preparing financial aid applications.

**SCHOOL IMPROVEMENT PROGRAMS**  
**(MOST PROGRAMS ALSO PROVIDE SOME DIRECT SERVICES TO STUDENTS)**

**ARTSBRIDGE**

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	ArtsBridge was founded to provide arts education classes to students whose schools have reduced or eliminated the curriculum. The program also introduces K-12 students to college students and encourages them to plan for enrollment.
<b>Target Population</b>	Low-income students who are educationally disadvantaged. The program also targets students who would be the first in their family to attend college.
<b>Program Start Date</b>	1996
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	32
<b>Number of High School Students Served<sup>b</sup></b>	3,853
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$1,500,000</b></p> <p>9-12 Direct Services: \$239,427            9-12 Other (materials, etc.): 28,500            9-12 Administration: <u>96,756</u>            9-12 Total Expenditures: \$364,613</p> <p><i>In addition, \$230,000 was provided in K-12 matching funds and in-kind services and \$240,000 was provided by UC campuses.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served is 44.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

Despite research showing a link between the arts and proficiency in language, math, and science, budget constraints have forced many public schools to reduce or cut their art education classes. Consequently, **ArtsBridge** was established to provide quality arts programs to K-12 schools and deliver

outreach programs. The UC students are given scholarships to teach the arts, focusing on visual art, dance, drama, and music for K-12 students.

The program is structured to provide art programs during the school day. Teacher training is also available to encourage K-12 teachers to integrate the arts throughout their curriculum. In addition to enhancing students' educational experience, ArtsBridge's goal is to introduce young students to college, particularly the UC system, at an early age. Although most of the students may major in a field other than art, positive interaction with arts teachers is seen as a way to encourage students to begin thinking about, and planning for, college.

## CALIFORNIA ACADEMIC PARTNERSHIP PROGRAM (CAPP)

FISCAL AGENT/SPONSOR	CALIFORNIA STATE UNIVERSITY
<b>Program Description</b>	CAPP awards grants to partnerships between CSU campuses and low-performing schools to improve English and mathematics curriculum and instruction.
<b>Target Population</b>	Schools with academic performance below the state average, low college going rates, and high percentages of students from groups underrepresented in California higher education.
<b>Program Start Date</b>	1984
<b>Grade Levels Served</b>	K-12
<b>Number of Comprehensive Public High Schools Served</b>	28
<b>Number of High School Students Served<sup>a</sup></b>	43,540
<b>Annual Budget</b> FY 2000-01	<p><b>K-12 Total State Revenue: \$3,500,000</b></p> <p>9-12 Direct Services: \$4,200,000            9-12 Administration: <u>350,760</u>            9-12 Total Expenditures: \$4,550,760</p> <p><i>In addition, approximately \$300,000 in federal funds and \$1 million was provided in K-12 matching funds and in-kind services.</i></p>

<sup>a</sup> Includes comprehensive, alternative, and private high schools.

The **California Academic Partnership Program** awards grants to partnerships between CSU campuses and low-performing schools to improve curriculum and instruction. It supports cooperative efforts that improve the academic quality of public middle and secondary schools, improves student preparation for college, and works with high schools to study their implementation of English and mathematics standards. The CAPP focuses on schools with academic performance below the state average, low college going rates, and high percentages of students from groups underrepresented in California higher education.

The CAPP is an intersegmental program, administered by CSU in cooperation with UC, CCC, CPEC, the Student Aid Commission, and California independent colleges and universities. It is the primary source of support for the

Mathematics Diagnostic Test Project, which supports diagnostic tests to identify weaknesses in students' math skills. Since one of CAPP's focuses is identifying practices and programs that have demonstrated success and sharing that information with other schools, all CAPP-funded projects are required to spend resources on data collection and evaluation.

## CALIFORNIA SUBJECT MATTER PROJECTS (CSMP)

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	CSMP is a professional development network for teachers in the following nine disciplines: art, foreign language, history-social science, international studies, mathematics, physical education and health, reading and literature, science and writing.
<b>Target Population</b>	Teachers at low-performing schools as well as those who work with students whom are low income and low achievement. The program also targets teachers at schools with a high number of beginning teachers and/or uncredentialed teachers.
<b>Program Start Date</b>	1988 (The Bay Area Writing Project, founded in 1974, was the precursor to CSMP.)
<b>Grade Levels Served</b>	Teachers in Grades K-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	655
<b>Number of High School Teachers Served<sup>b</sup></b>	N/A
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$35,564,515</b></p> <p>K-12 Direct Services: \$29,619,853                      K-12 Other (materials): 2,094,968                      K-12 Administration: 3,849,694                      K-12 Total Expenditures: \$35,564,515</p> <p><i>Revenue was received in FY 2000-01 and expenditures were made over a two-year period (FY 2000-01 and FY 2001-02).</i></p> <p><i>In addition, \$250,000 was provided in K-12 matching funds and in-kind services.</i></p> <p><i>Program does not track grade 9-12 revenue and expenditures separately.</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 786.

<sup>b</sup> Total number of grade K-12 teachers served is 25,082.

The **California Subject Matter Project's** professional development networks assist teachers to develop and enhance their subject matter knowledge

to support state curriculum and learning standards. The program also provides teachers with instructional strategies and access to current research on techniques to improve student learning. Finally, teacher leaders are developed and deployed to serve as a mentor to their colleagues within their schools and districts.

The CSMP is the largest professional development enterprise in the state's educational system. It features a network of regional sites housed on college campuses. One of the main goals is to bring classroom teachers together to spark conversation about shared experiences. University researchers are also involved to provide information on, among other topics, new teaching theories. Another major goal of the program is to foster professional relationships among participants. It is hoped that this will provide resources for teachers as well as encourage them to remain in the field. Activities include summer institutes, as well as academic year follow-up activities, in-service presentations and workshops, mini-institutes, and conferences.

## COLLABORATIVE ACADEMIC PREPARATION INITIATIVE (CAPI)

FISCAL AGENT/SPONSOR	CALIFORNIA STATE UNIVERSITY
<b>Program Description</b>	CAPI assists high school students to develop English and mathematics skills necessary to enter into CSU baccalaureate-level courses. The program’s overall goal is to reduce the number of CSU freshmen who require English and mathematics remedial classes.
<b>Target Population</b>	11 <sup>th</sup> and 12 <sup>th</sup> grade students who need additional support meeting university placement standards in English and mathematics.
<b>Program Start Date</b>	1999
<b>Grade Levels Served</b>	11-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	149
<b>Number of High School Students Served<sup>b</sup></b>	85,974
<b>Number of Teachers Served</b>	2,457
<b>Annual Budget FY 2000-01</b>	<p><b>9-12 Total State Revenue: \$9,100,151</b></p> <p>9-12 Direct Services: \$7,599,503</p> <p>9-12 Other 698,806</p> <p>9-12 Administration: <u>702,259</u></p> <p>9-12 Total Expenditures: \$9,000,568</p>

*a Total number of high schools (including comprehensive, alternative, continuation and private) served was 172.*

*b Includes comprehensive, alternative, and private high schools.*

The **Collaborative Academic Preparation Initiative** assists high school students to develop the English and mathematics skills necessary to enter into CSU baccalaureate-level courses. The program’s overall goal is to reduce the number of CSU freshmen who require English and mathematics remedial classes.

CAPI has two components: 1) *CSU–High School Faculty-to-Faculty Alliances* and 2) *Learning Assistance Programs*. The Faculty-to-Faculty alliances pair English and mathematics faculty members from CSU campuses with regional high school representatives. High school representatives include the chairs of the English and mathematics department, deans of curriculum,

teachers, and principals. The CSU and high school representatives collaborate through in-service programs, special work groups, and other partnership forums to align CSU and high school English and mathematics standards. Program funding provides release time for representatives from both CSU and high schools.

The Learning Assistance Programs pairs CSU campuses with selected high schools to provide tutoring to students who need additional support meeting university placement standards in English and mathematics.

## COLLEGE PREP INITIATIVE

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA
<b>Program Description</b>	College Prep Initiative provides online advanced placement (AP) and honors classes to students that do not have access to AP courses. The program provides the online courses, textbooks, tutoring and AP test preparation free of charge to eligible high schools.
<b>Target Population</b>	Low-income students, educationally disadvantaged students and students with mid-to-high academic achievement. The program also targets students whose schools have a low college enrollment rate.
<b>Program Start Date</b>	1998
<b>Grade Levels Served</b>	9-12
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	229
<b>Number of High School Students Served<sup>b</sup></b>	2,908
<b>Annual Budget FY 2000-01</b>	<p><b>9-12 Total State Revenue: \$8,400,000</b></p> <p>9-12 Direct Services: \$2,198,157            9-12 Other (materials): 895,843            9-12 Administration: <u>675,001</u>            9-12 Total Expenditures: \$3,769,001</p> <p><i>One-time budget reduction of \$4 million was made in FY 2000-01. (Cuts included \$2 million in course development and \$2 million in course delivery.)</i></p>

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 246.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

In addition to providing online Advanced Placement and honors classes to schools that do not have the means to include these in their curriculum, the **College Prep Initiative** also provides staff who are capable of assessing individual schools (both academically and technologically) and implementing the appropriate online courses. Courses are delivered through the Internet, CD-ROM, and textbooks. In addition, many of the courses have a cyber teacher responsible for facilitating the class and grading assignments. Other classes work with local teachers to develop curriculum and classroom instruction.

## K-12 SCHOOL UNIVERSITY PARTNERSHIPS

FISCAL AGENT/SPONSOR	UNIVERSITY OF CALIFORNIA								
<b>Program Description</b>	Partnerships between UC campuses and K-12 schools designed to bridge the gap between postsecondary education and educationally disadvantaged students.								
<b>Target Population</b>	The program targets a wide range of students, including those who are low-income, the first in their family to attend college, and from under-represented populations. Students of all academic achievement levels from schools that are low performing, have a high number of uncredentialed teachers and/or have a high number of beginning teachers are also targeted.								
<b>Program Start Date</b>	1997								
<b>Grade Levels Served</b>	K-12								
<b>Number of Comprehensive Public High Schools Served<sup>a</sup></b>	71								
<b>Number of High School Students Served<sup>b</sup></b>	186,297								
<b>Annual Budget FY 2000-01</b>	<p><b>K-12 Total State Revenue: \$14,546,535</b></p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 70%;">9-12 Direct Services:</td> <td style="text-align: right;">\$7,340,320</td> </tr> <tr> <td>9-12 Other</td> <td style="text-align: right;">801,448</td> </tr> <tr> <td>9-12 Administration:</td> <td style="text-align: right;"><u>1,172,601</u></td> </tr> <tr> <td>9-12 Total Expenditures:</td> <td style="text-align: right;"><b>\$9,314,370</b></td> </tr> </table> <p><i>In addition, approximately \$12.7 million was provided in matching K-12 funding and in-kind services.</i></p>	9-12 Direct Services:	\$7,340,320	9-12 Other	801,448	9-12 Administration:	<u>1,172,601</u>	9-12 Total Expenditures:	<b>\$9,314,370</b>
9-12 Direct Services:	\$7,340,320								
9-12 Other	801,448								
9-12 Administration:	<u>1,172,601</u>								
9-12 Total Expenditures:	<b>\$9,314,370</b>								

<sup>a</sup> Total number of high schools (including comprehensive, alternative, continuation and private) served was 73.

<sup>b</sup> Includes comprehensive, alternative, and private high schools.

The goal of the **K-12 School University Partnership** is to strengthen the academic programs at participating schools and to assist more students to become eligible for college. The UC campuses work with area schools to create a “pipeline” of students who are educationally driven and prepared for college. The UC campuses attempt to strengthen academics at partner schools where

student performance is low with a variety of programs, such as curriculum development, teacher training and student tutoring.

## IV. FINDINGS

This chapter presents summary data related to the distribution and prevalence of the high school outreach programs described in the previous section. During 2000-01, the 19 high school outreach programs included in this report served over 600,000 students<sup>3</sup> and nearly 6,000 high school teachers. Appendix B lists the state's 901 comprehensive public high schools and the outreach programs in place at these schools. Appendix C provides demographic, socioeconomic, and academic performance data for each comprehensive public high school.

As noted in Chapter III, the programs employ various strategies to assist students. Appendix A.1 summarizes the services provided by the programs. Selection criteria also varied by program. Almost all programs recruited low-income and educationally disadvantaged students. Most of the programs considered whether the student would be the first in his/her family to attend college. Appendix A.2 summarizes the selection criteria used by each program.

The outreach programs collected a variety of evaluation data, ranging from SAT scores to the completion of college preparatory courses. However, most looked at standardized test scores and college acceptance rates as a measure of the program's effectiveness. Appendix A.3 indicates the type of evaluation data collected by each program.

Since many programs reported similar selection and target criteria, it was anticipated that multiple programs would be grouped among schools with similar characteristics. Therefore, findings focus on the characteristics of high schools and their number of outreach programs. Most findings are presented in the following categories: schools with 0 programs, 1-2 programs, 3-4 programs, or 5 or more programs.

**FINDING: MOST COMPREHENSIVE PUBLIC HIGH SCHOOLS HAVE ONE OR MORE HIGH SCHOOL OUTREACH PROGRAM.**

Of the state's 901 comprehensive public high schools, approximately 94.9 percent had one or more high school outreach program, as shown in Table 1. There is an average of three programs per high school throughout the state. However, the majority – nearly 56.4 percent – of high schools had no more than four outreach programs. The remaining schools, an estimated 38.5 percent, have five or more outreach programs.

---

<sup>3</sup> There is some duplication in the number of students as some schools have multiple programs and the same student could be enrolled in more than one program.

**TABLE 1**  
**DISTRIBUTION OF OUTREACH PROGRAMS AMONG SCHOOLS**

8	53	5.9
9	26	2.9
10	10	1.1
11	6	0.7
12	3	0.3
<b>TOTAL</b>	<b>901</b>	<b>100.0</b>

**FINDING: OUTREACH PROGRAMS ARE PREVALENT THROUGHOUT THE STATE. MORE POPULATED REGIONS ARE MORE LIKELY TO HAVE PROGRAMS.**

The distribution of outreach programs was consistent with the distribution of high schools throughout the state. As shown in Table 2, high school outreach programs are distributed in nearly the same proportions as comprehensive public high schools throughout the state.

**TABLE 2  
OUTREACH PROGRAMS STATEWIDE DISTRIBUTION**

<b>REGION<sup>4</sup></b>	<b>NUMBER OF HIGH SCHOOLS</b>	<b>PERCENT OF HIGH SCHOOLS IN REGION</b>	<b>PERCENT OF OUTREACH PROGRAMS IN REGION</b>
<b>Bay Area</b>	165	18.3	19.3
<b>Central Coast</b>	60	6.7	6.8
<b>Central Valley</b>	157	17.4	18.3
<b>Desert</b>	89	9.9	9.1
<b>Foothill/Mountain</b>	46	5.1	1.6
<b>Los Angeles-San Diego</b>	296	32.9	36.8
<b>North Region</b>	88	9.8	8.0
<b>TOTAL</b>	<b>901</b>		

However, as shown in Table 3 within more populated regions of the state (that is, the Desert, Bay Area, Central Valley, and Los Angeles-San Diego regions) between 33.7 percent and 44.9 percent of high schools have five or more outreach programs. In contrast, just 2.2 percent of the Foothill/Mountain schools and 22.7 percent of schools in the north region had as many programs.

---

<sup>4</sup> For purposes of this report, the Bay region includes Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma counties. The Central Coast region includes Monterey, San Benito, San Luis Obispo, Santa Barbara, Santa Cruz and Ventura counties. The Central Valley region includes Fresno, Kern, Kings, Madera, Mariposa, Merced, Sacramento, San Joaquin, Stanislaus and Tulare counties. The Desert region includes Imperial, Riverside and San Bernadino counties. The Foothill/Mountain region includes Alpine, Amador, Calaveras, El Dorado, Inyo, Mono, Nevada, Placer, Sierra and Tuolumne counties. The L.A.-San Diego region includes Los Angeles, Orange and San Diego counties. The North region includes Butte, Colusa, Del Norte, Glenn, Humboldt, Lake, Lassen, Mendocino, Modoc, Plumas, Shasta, Siskiyou, Sutter, Tehama, Trinity, Yolo and Yuba counties.

**TABLE 3  
REGIONAL DISTRIBUTION OF OUTREACH PROGRAMS**

REGION	NUMBER OF PROGRAMS							
	0		1-2		3-4		5 OR MORE	
	NUMBER OF SCHOOLS	PERCENT OF SCHOOLS	NUMBER OF SCHOOLS	PERCENT OF SCHOOLS	NUMBER OF SCHOOLS	PERCENT OF SCHOOLS	PERCENT OF SCHOOLS	PERCENT OF SCHOOLS
Bay	6	3.6	53	32.1	34	20.6	72	43.6
Central Coast	3	5.0	15	25.0	16	26.7	26	43.3
Central Valley	6	3.8	38	24.2	48	30.6	65	41.4

Foothill/Mountain	11	23.9	29	63.0	5	10.9	1	2.2
LA - San Diego	13	4.4	75	25.3	75	25.3	133	44.9
North	4	4.5	32	36.4	32	36.4	20	22.7
<b>Total</b>	<b>46</b>		<b>272</b>		<b>236</b>		<b>347</b>	

Furthermore, of the schools with outreach programs, approximately 53.8 percent were located in suburban communities whereas 21.1 percent were located in urban areas and 21.5 percent were located in rural areas. An additional 3.6 percent of schools were located in rural metropolitan areas. Although this breakdown was proportional to the statewide distribution of schools in these geographic categories, the distribution of schools with zero programs was not.

Of the 46 schools with no outreach programs, 37.0 percent were rural schools and 4.3 percent were urban schools. (Approximately 22.3 percent of the state’s high schools are located in rural areas and 20.2 percent in urban areas.) Remaining consistent with the statewide distribution of schools, 4.3 percent of schools with no programs were in metropolitan rural areas and 54.3 percent were in suburban communities.

**FINDING: THE NUMBER OF SCHOOLS WITHOUT ANY OUTREACH PROGRAM INCREASES WHEN OUTREACH PROGRAMS THAT PROVIDE TRAINING TO TEACHERS ARE EXCLUDED. THIS IS PARTICULARLY EVIDENT IN RURAL AREAS.**

Of the 19 outreach programs included in this report, 17 provide direct student services. The CSMP and CAPP provide services to teachers to help them improve curriculum and teaching

methods. During 2000-01, CSMP served 655 and CAPP served 28 comprehensive public high schools, respectively. As presented in Table 4, if CSMP and CAPP are excluded, all regions show a drop in the number of schools with outreach programs. The greatest change is the increase in the number of schools with no outreach programs, particularly in the rural Foothill/Mountain, Central Coast, and North regions. Teacher development programs such as CSMP tend to establish regional centers to deliver the programs; therefore providing greater opportunities for rural schools to participate.

**TABLE 4  
REGIONAL DISTRIBUTION OF OUTREACH PROGRAMS  
(EXCLUDING CSMP AND CAPP)**

<b>Total</b>	<b>101</b>		<b>299</b>		<b>234</b>		<b>267</b>	

**FINDING: MOST OUTREACH PROGRAMS REPORT SELECTION CRITERIA THAT FOCUS ON LOW-PERFORMING SCHOOLS AND STUDENTS, COLLEGE ATTENDANCE RATES, AND STUDENTS WHO WOULD BE THE FIRST IN THEIR FAMILY TO ATTEND COLLEGE.**

Generally, schools with low state calculated Academic Performance Index (API) rankings, high percentages of English Learners, and low-income students were more likely to have a significantly greater number of outreach programs than their higher-performing and higher-income counterparts. This finding is consistent with the reported types of schools and students that state-funded high school outreach programs target.

Tables 5 through 11 provide more information related to the distribution of schools by prevalence of outreach programs based on various school characteristics. Table 5 presents some of the defining characteristics of schools and the number of outreach programs in each. This table shows that schools with no programs had a median API ranking of nine, three times greater than schools with five or more programs.

**TABLE 5**  
**SCHOOL CHARACTERISTICS AND PREVALENCE OF OUTREACH PROGRAMS**

NUMBER OF PROGRAMS	NUMBER OF SCHOOLS	SCHOOL CHARACTERISTICS					
			STATEWIDE API RANK <sup>a</sup>	PERCENT ENGLISH LEARNERS	TOTAL ENROLLMENT	PERCENT OF HIGH SCHOOL GRADUATES ATTENDING COLLEGE	PERCENT OF TEACHERS WITH WAIVERS AND EMERGENCY PERMITS
0	46	Average	6.6	7.5	930	51.1	13.7
		Median	9.0	3.5	808	53.8	6.5
1-2	258	Average	6.8	9.4	1,407	48.8	11.6
		Median	7.0	5.5	1,471	52.0	8.3
3-4	229	Average	5.9	12.4	1,608	49.2	12.4
		Median	6.0	8.2	1,655	50.0	10.2
5 or more	370	Average	3.8	21.4	2,188	48.3	15.7
		Median	3.0	18.5	2,113	48.3	14.7

<sup>a</sup>A school's statewide API rank is a number from 1 (lowest) to 10 (highest) indicating in which decile a school performed, as measured by its API.

There was a strong correlation between a school's API ranking and the number of outreach programs offered. As Table 6 shows, 69.4 percent of schools with low API ranking had five or more outreach programs; whereas only 11.5 percent of schools with a high ranking had as many programs.

**TABLE 6**  
**DISTRIBUTION OF SCHOOLS BY**  
**API RANK AND NUMBER OF OUTREACH PROGRAMS**

API RANK <sup>A</sup>	NUMBER OF SCHOOLS (N=901)	NUMBER OF PROGRAMS			
		0	1-2	3-4	5 OR MORE
		<i>(By Percent)</i>			
No API rank reported	28	28.6	42.9	14.3	14.3
Low API rank	252	1.6	8.7	20.2	69.4
Middle API rank	352	1.1	29.8	30.1	38.9
High API rank	269	11.2	49.4	27.9	11.5

<sup>a</sup> API rankings were broken into the following categories: Low—3 or lower, Middle—between 4 and 7, High—8 or higher.

Table 7 includes information about a school’s socioeconomic status<sup>5</sup> and the number of high school outreach programs. Over 47.2 percent of the disadvantaged schools have five or more programs whereas only 4.3 percent of the nondisadvantaged schools have five or more programs.

**TABLE 7**  
**DISTRIBUTION OF SCHOOLS BY**  
**SOCIOECONOMIC STATUS AND NUMBER OF OUTREACH PROGRAMS**

REPORTED SOCIOECONOMIC STATUS	NUMBER OF SCHOOLS (N=901)	NUMBER OF PROGRAMS			
		0	1-2	3-4	5 OR MORE
		<i>(By Percent)</i>			
Not reported	28	28.6	42.9	14.3	14.3
Disadvantaged	712	2.2	23.5	27.1	47.2
Not Disadvantaged	161	13.7	57.8	24.2	4.3

Another measurement to evaluate the prevalence of outreach programs based on socioeconomic factors is by the rate that students qualify for free or reduced-price meals. As shown in Table 8, schools with a greater number of students that qualify for

<sup>5</sup> The CDE defines a schools socioeconomic status based on several characteristics including pupil mobility, ethnicity and economic status, percentage of teachers who are fully credentialed, percentage of students who are English language learners, average class size per grade level, and school schedules (that is, year-round vs. traditional schedule).

the free or reduced priced meal program generally have more outreach programs.

**TABLE 8**  
**DISTRIBUTION OF SCHOOLS BY**  
**FREE AND REDUCED MEAL RATES AND NUMBER OF OUTREACH**  
**PROGRAMS**

STUDENTS ELIGIBLE FOR FREE OR REDUCED PRICED MEALS (BY PERCENT)	NUMBER OF SCHOOLS (N=901)	NUMBER OF PROGRAMS			
		0	1-2	3-4	5 or More
		(By Percent)			
Not reported	2	50.0	50.0	--	--
0-25	433	7.9	43.2	28.2	20.8
26-50	269	1.9	19.0	26.8	52.4
51-75	149	2.0	14.8	24.2	59.1
76-100	48	6.3	22.9	12.5	58.3

In Table 9, the number of high school outreach programs based on the percentage of English Learners is presented. Since many students from non-English speaking families are the first members of their families to enroll in college, this data is useful to interpret how the outreach programs target schools with low college enrollment rates. Outreach programs also use this data to determine which students will benefit most from program support.

**TABLE 9**  
**DISTRIBUTION OF SCHOOLS BY**  
**ENGLISH LEARNER RATES AND NUMBER OF OUTREACH PROGRAMS**

PERCENT OF ENGLISH LEARNERS	NUMBER OF SCHOOLS (N=901)	NUMBER OF PROGRAMS			
		0	1-2	3-4	5 or More
		(By Percent)			
Not reported	64	21.9	51.6	23.4	3.1
0-25	666	4.4	32.6	28.5	34.5
26-50	153	1.3	11.8	19.6	67.3
51-75	17	5.9	17.6	5.9	70.6
76-100	1	--	100.0	--	--

Table 10 presents information about college attendance rates and the number of outreach programs. Schools with five or more outreach programs comprised the largest percentage in each of the four college attendance rate categories. However, as the data indicates, college attendance rates do not seem to influence the number of outreach programs at a specific school.

**TABLE 10**  
**DISTRIBUTION OF SCHOOLS BY COLLEGE ATTENDANCE**  
**RATES AND NUMBER OF OUTREACH PROGRAMS**

PERCENTAGE OF STUDENTS ATTENDING COLLEGE	NUMBER OF SCHOOLS (N=901)	NUMBER OF PROGRAMS			
		0	1-2	3-4	5 or More
		<i>(By Percent)</i>			
Not reported	70	22.9	45.7	18.6	12.9
0-25	68	2.9	36.8	22.1	38.2
26-50	370	3.5	22.4	27.0	47.0
51-75	366	3.6	34.4	27.3	34.7
76-100	27	7.4	22.2	29.6	40.7

The percentage of a school’s teachers with emergency credentials and waivers also has some bearing on a school’s number of outreach programs. Table 11 shows that as the percentage of a school’s teachers with waivers and emergency permits increases from 0 to 30 percent, the proportion of those schools with 5 or more programs also increases, from approximately 25.3 to 62.9 percent. Schools where more than 50 percent of their teaching staff have emergency permits or waivers are relatively few, but generally these schools have a significant number of outreach programs.

**TABLE 11  
DISTRIBUTION OF SCHOOLS BY  
PERCENT OF TEACHERS WITH WAIVERS OR EMERGENCY PERMITS AND  
NUMBER OF OUTREACH PROGRAMS**

PERCENTAGE OF TEACHERS WITH WAIVERS AND EMERGENCY PERMITS	NUMBER OF SCHOOLS (N=901)	NUMBER OF PROGRAMS			
		0	1-2	3-4	5 or More
		<i>(By Percent)</i>			
Not reported	2	50.0	50.0	--	--
0-5	245	8.2	40.4	25.7	25.7

41-50	11	18.2	9.1	18.2	54.5
51-100	11	18.2	45.5	9.1	27.3

**FINDING: MAJORITY OF SCHOOLS HAVE AT LEAST ONE PROGRAM FROM EACH OF THE THREE OUTREACH PROGRAM CATEGORIES.**

Table 12 presents information about the prevalence of program categories by API scores and school enrollment. Approximately 45.5 percent of schools had at least one outreach program from each category and a median API score of 4, compared to a median API score of 9 for schools without any outreach programs. Schools with only School Improvement programs reported a median API score of 8, compared to median API scores of 6 and 5 for schools with only Student Academic Preparation Program and Informational Outreach Program categories, respectively.

**TABLE 12  
DISTRIBUTION OF OUTREACH PROGRAM CATEGORIES BY  
API SCORES AND AVERAGE STUDENT ENROLLMENT**

TYPES OF PROGRAMS	NUMBER OF SCHOOLS	PERCENT OF SCHOOLS	SCHOOL CHARACTERISTICS		
				STATEWIDE API RANK	TOTAL ENROLLMENT
Informational Outreach Programs (IOP) only	13	1.4	Average	4.7	1,122
			Median	5.0	651
Student Academic Preparation Programs (SAPP) only	47	5.2	Average	6.2	1,780
			Median	6.0	1,899

			Median	4.0	2,004
No Programs	46	5.1	Average	6.6	930
			Median	9.0	808

**FINDING: LIMITED DETAILED FISCAL DATA ABOUT PROGRAMS IS AVAILABLE.**

Program funding is central to the scope and size of the outreach programs. The majority of each program’s budget is provided from the state General Fund. However, some programs required a local contribution from individual school districts while

others received federal funding. Appendix A.4 provides a breakdown of the programs' revenues and expenditures. Some programs were unable to provide a detailed revenue and expenditure accounting for their grade 9-12 outreach programs.

Appendix A.5 presents data regarding the distribution of program funds as well as high school selection criteria. Most programs provide services and materials directly to the schools, which are generally selected to participate on a competitive basis. It also provides information on which programs require a local match from the high schools.

## **V. CONCLUSION**

The inventory of programs throughout the state is such that nearly every school has some type of outreach program. However, rural schools throughout the state appear to be underserved, particularly by site-based student programs. Based on school characteristics—including API ranking, socioeconomic rates, and free and reduced price meal rates—it appears that programs are operating in schools according to their stated selection criteria.

Although this study discovered a high concentration of programs at some schools (see Appendix D for a list of schools by county), information required to assess the level of coordination among programs was not available. The lack of standard data collection practices among programs also made it difficult to determine if a core group of students was enrolled in multiple programs or whether schools with a large number of programs were able to serve more students.

Finally, the decentralized operations of many of the programs made it difficult to obtain financial and performance data. Information was not always readily available to the central program administrators. This was particularly true in regard to the level of expenditures for grade 9-12 services, the number of students participating in a program at each high school, and the results of performance evaluations.

## APPENDIX C.2

### PROFILES OF COMPREHENSIVE PUBLIC HIGH SCHOOLS

DATA	DEFINITION	SOURCE <sup>1</sup>
CDS Code	County-district-school (CDS) coding system number.	CDE's List of California Public School Districts and Schools
School Name	School name.	CDE's List of California Public School Districts and Schools
County	Name of county in which school is located.	CDE's List of California Public School Districts and Schools
District	Name of district in which school is located.	CDE's List of California Public School Districts and Schools
Region	Region of the State in which school is located.	N/A - regional designation.
Enrollment	Number of students enrolled in school.	CDE's California Basic Educational Data System (CBEDS) Public School Information Database School Information Form (SIF)
Percent of Native American/Alaskan Native	Percentage of enrolled students who are Native American or Alaska Native.	CBEDS SIF
Percent of Asian American	Percentage of enrolled students who are Asian/Asian American.	CBEDS SIF
Percent of Pacific Islander	Percentage of enrolled students who are Pacific Islander.	CBEDS SIF
Percent of Filipino	Percentage of enrolled students who are Filipino/Filipino American.	CBEDS SIF
Percent of Hispanic	Percentage of enrolled students who are Hispanic/Latino.	CBEDS SIF
Percent of African American	Percentage of enrolled students who are Black/African American.	CBEDS SIF
Percent of White	Percentage of enrolled students who are White (not of Hispanic Origin).	CBEDS SIF
Percent of Other	Percentage of enrolled students who are Multi-Ethnic or for whom there is no indication of ethnicity.	CBEDS SIF
Statewide API Rank	A school's statewide API rank is a number from 1 (lowest) to 10 (highest) indicating in which decile a school performed, as measured by its Academic Performance Index (API). <sup>2</sup>	CDE's Policy and Evaluation Division School Accountability Report Card, Academic Performance Index, 2001 API Base Data File.
Similar API Rank	A school's similar API rank is a number between 1 (lowest) to 10 (highest) indicating in which decile a school performed among schools with similar characteristics. <sup>3</sup> Like its statewide rank, a school's similar schools rank is measured by its API.	CDE's Policy and Evaluation Division School Accountability Report Card, Academic Performance Index, 2001 API Base Data File.
Disadvantaged Schools	A numerically significant number of enrolled students are socioeconomically disadvantaged. <sup>4</sup>	CDE's Policy and Evaluation Division School Accountability Report Card, Academic Performance Index, 2001 API Base Data File.
Free or Reduced Price Meals	Percentage of enrolled students who are eligible for free or reduced price meals.	CBEDS SIF
Percent of English Learners	Percentage of enrolled students who are English language learners.	CBEDS SIF
Attends College	Percentage of a school's graduates attending college. <sup>5</sup>	California Postsecondary Education Commission (CPEC) Student Data Files
Noncredentialed Teachers	Percentage of a school's teachers with credential waivers and emergency permits.	CBEDS Professional Assignment Information Form (PAIF)

## APPENDIX C.2

### PROFILES OF COMPREHENSIVE PUBLIC HIGH SCHOOLS

---

<sup>1</sup> CDE, CBEDS, and CPEC data are from FY 2000-2001. FY 2000-2001 program data was requested from program administrators by survey in March and April 2002.

<sup>2</sup> The API is a numeric score that summarizes a school's prior year performance, based on individual students' performance on the Stanford 9 and on the CST ELA. For more information, see CDE's Explanatory Notes for the 2001 Academic Performance Index, available at <http://api.cde.ca.gov/reports.html>.

<sup>3</sup> These characteristics include pupil mobility, ethnicity, and socioeconomic status, percentages of teachers who are fully credentialed and who hold emergency credentials, percentage of students who are English language learners, average class size per grade level, and whether the schools operate multi-track year-round educational programs.

<sup>4</sup> A numerically significant socioeconomically disadvantaged subgroup is one that constitutes at least 15 percent of a school's total pupil population and consists of at least 30 pupils. A socioeconomically disadvantaged subgroup of at least 100 pupils also constitutes a numerically significant subgroup, even if the subgroup does not constitute 15 percent of the total enrollment at a school. For schools whose API scores are based on test scores of no fewer than 11 and no more than 99 pupils, numerically significant subgroups are defined by the Superintendent of Public Instruction, with approval by the State Board of Education.

<sup>5</sup> Calculated using each school's number of high school graduates and college going counts. For some schools, the college going counts were greater than the number of graduates. To address this discrepancy, we placed an upward limit on the college going counts equal to the number of graduates.
